

Chickapea[®]

Good with every bite.

Dear Store Manager,

I would love to see *Chickapea Pasta* and *Chickapea Vegan Mac* in your store!

Chickapea Pasta is an organic, gluten-free pasta made from organic chickpeas and lentils. It's 3x the protein, 4x the fibre of brown rice pasta and a good source of iron. It also has a low-glycemic index and is free of added sugar, preservatives, and anything artificial. Made in a gluten-free, nut-free facility, Chickapea is not only super nutritious and easy-peasy, it's also delicious!
